Permanent Lab Selection Form and MOU 12/21/2026	Permanent Lab 12/21/2026	

Securing lab rotations is your responsibility as a PhD student. As you plan your rotations, please keep the following in mind:

- Rotations are student-initiated and should be arranged in coordination with the faculty member. It is up to you to reach out and confirm these opportunities.
- Verify that each lab you are rotating with has funding to support you for the duration of your PhD.
- Final lab placements must be approved by Dr. John LaPres.

If you have questions or need guidance at any point, don't hesitate to reach out. We are here to help you navigate this process successfully.
